Dear Mr. Crowley:

This refers to your license amendment request dated May 23, 2016. Enclosed with this letter is the amended license. This Amendment updates the license with your new address and increases the total activity authorized for use in NRC jurisdiction. We understand from your correspondence that you have unconditionally released the previous storage location and that ECS Carolinas, LLP, no longer controls that site. Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities. Thank you for your cooperation.

Sincerely,
