

April 29, 2016

Document Control Desk
U. S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: NTS Potential Part 21 letter to NRC dated April 25, 2016 pertaining to submergence testing documented in Wyle Laboratories Test Report Nos. 45700-1 Rev. A dated November 21, 1988 and 45700-2 Rev. A dated November 21, 1988.

This letter is hereby provided as notification to the NRC that NTS has identified customers who purchased Gems Sensors Liquid Level Transmitters with model numbers that match the model numbers tested or model numbers similar to those tested directly from NTS. NTS is notifying these customers of the potential Part 21 condition on the subject reports. We plan to complete this notification process by June 24, 2016.

Thank you for your consideration in this matter and if you have any questions, please contact NTS' Senior Director of Nuclear Engineering and Test Services, Tom Brewington at (256) 716-4512 or email at tom.brewington@nts.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Megan Toomey", with a horizontal line extending to the right.

Megan Toomey
Sr. Contracts Manager
NTS Huntsville
