James Weldy, Radiation Safety Officer  
The Dow Chemical Company  
H&ES, Industrial Hygiene Laboratory  
1803 Building  
Midland, MI 48674

Dear Mr. Weldy:

It has come to our attention that Amendment Number 91 to NRC License Number 21-00265-06 contained an error in license condition number 11.A. which originally occurred on Amendment Number 90, and carried over to Amendment Number 91. Specifically, we neglected to name Scott Bemis as the Radiation Safety Committee Chairperson, replacing Shari Kennett.

We apologize for any inconvenience this may have caused you.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin G. Null".
