## Attachment -- Commission Policy Statement on Staff Meetings Open to the Public

### A. Purpose.

The Nuclear Regulatory Commission's (NRC) longstanding practice is to provide the public with substantial information on its activities, to conduct business in an open manner, and to balance openness and transparency with the need to exercise regulatory and safety responsibilities without undue administrative burden. The NRC's policy is to open meetings between the agency staff and one or more outside persons to observation and participation to the extent possible. The NRC has had a formal policy regarding open (public) meetings since 1978.

This policy establishes three public meeting categories based on the level of participation offered to attendees. The policy provides information such as ~~applicability and exceptions~~, descriptions of each category, information on how public meetings are announced, ~~guidelines concerning public meeting etiquette, and~~ post-meeting activities, and applicability and exceptions.

**Commented [EG1]:** Staff should include a statement and reference to the current 2002 policy statement.

### B. Participation in NRC Public Meetings.

~~NRC staff sponsored public meetings are open to everyone. The NRC is committed to providing an atmosphere of civility and inclusion at its public meetings. All participants are expected to follow established ground rules to support this atmosphere of civility and inclusion regardless of personal viewpoints. If the actions of one or more participants significantly impact this atmosphere, and therefore other participants' ability to observe or participate in a meeting, the NRC staff shall take appropriate actions to restore a more respectful environment, including ending a meeting, if necessary.~~

In order to fulfill the NRC's commitment to openness, the level of participation, purpose, and description for each category of public meeting are described below. When assigning a

category to a meeting, NRC staff will consider the objective of the meeting and the extent of known public interest in the topic.

The three meeting categories are based on the level of public participation to be provided at each type of meeting. Thus, some categories may support multiple meeting formats ~~(for example, a town hall meeting could be an Information Public Meeting or Commenting Public Meeting)~~. The label for each category provides an indication of the level of participation meeting attendees can expect.

~~NRC staff sponsored public meetings are open to everyone.~~—The NRC is committed to providing an atmosphere of civility and inclusion at its public meetings. All participants are expected to follow established ground rules, including those provided in the applicable meeting notice posted on the NRC's public website, to support this atmosphere of civility and inclusion regardless of personal viewpoints. If the actions of one or more participants significantly impact this atmosphere, and therefore other participants' ability to observe or participate in a meeting, the NRC staff shall take appropriate actions to restore a more respectful environment, including ending a meeting early if necessary.
