**RE: License Number: SUB-1601
License Termination**

To Whom It May Concern:

I am writing this letter to request that our license, SUB-1601, be terminated. I am enclosing NRC Form 314 "Certificate of Disposition of Materials" with this letter. It is my understanding that you will require this document in order to terminate our license. Please note that, no radioactive materials have ever been procured or possessed by us.

I have tried to reach out to the NRC on several occasions to get direction on this process. Unfortunately, none of my voice mail messages have been returned. I have a letter from the NRC from 2015 that indicates the process. I'm hoping that I have interpreted it correctly and that this is how I should proceed. I received an invoice for our license that I'm not sure how to handle. The charge needs to be revised as we are a small company and use form NRC 526 for manufacturing with less than 35 employees. I will need your direction on what I need to do, I'm hoping that I will not need to pay this fee.

In summary, I am requesting the termination of our license, SUB-1601. Please advise me if you require any further documents and what I should do regarding licensing fees.

I can be reached at 248-373-9800 x 224 or by email at sue@oasis-ae.com

Respectfully

Susan E. Hobson
Director of Business Operations
