JUN 21 2016

Dear Ms. Fields:

This refers to the letters dated May 10, 2016, and June 6, 2016 (received June 17, 2016), both signed by you, requesting a change in Radiation Safety Officer (RSO) to Bryce A. Caudle, M.S. for your NRC Material License No. 13-32020-01.

We have reviewed your correspondence above and find that we need the information below in order to continue our review. Please read all of the information below and prepare a complete written response that addresses all of the following issues, as directed.

1. Please specify the minimum amount of time Mr. Caudle will be expected to devote to the RSO duties for this license over a specified time period, such as "per week" or "per month."

This is a repeat question. We are asking for this information again because the response given in your letter dated June 6, 2016, was not specific enough to resolve our inquiry. Your letter stated, "Mr. Caudle will devote as much time as needed to ensure compliance with all NRC regulations and requirements. He will be on site at least once per calendar quarter."

Please note that "as much time as needed" is not a "minimum amount of time," as we requested. It was unclear if your intent was to have Mr. Caudle on site only once per calendar quarter as a "minimum amount of time."

Please respond specifically and clearly to our inquiry.

Please be reminded that 10 CFR 30.32(a) and (c) require:

"(a) A person may file an application on NRC Form 313, "Application for Material License," in accordance with the instructions in § 30.6 of this chapter." And,

"(c) Each application shall be signed by the applicant or licensee or a person duly authorized to act for and on his behalf."

Please note that the NRC Form 313 requires the typed or printed name and signature of a certifying officer. The NRC Form 313 can be found at:

If the NRC Form 313 is not used, then a "business – style" letter containing all of the information on the NRC Form 313 may be used instead.

For medical/human use applicants and licensees:

10 CFR 35.12 Application for license, amendment, or renewal requires:

"(a) An application must be signed by the applicant's or licensee's management."

10 CFR 35.2, "Definitions" states, in part:

"Management means the chief executive officer or other individual having the authority to manage, direct, or administer the licensee's activities, or those persons' delegate or delegates."

Within 5 days of the date of this letter (by June 26, 2016), please provide only one complete, written response to the issues below that is currently dated and signed by a senior management official for this license.

Your written response should be addressed to my attention at the above address, as "additional information to control number 590667." This will help to ensure that your response is processed correctly in our offices.

If an alternative timeframe for response is needed please contact me directly. Or, if you have any specific questions concerning this letter or the information we are requesting, please contact me at either (630) 829-9841 or (800) 522-3025, ext. 9841. My fax number is 630-515-1078. My email address is colleen.casey@nrc.gov.

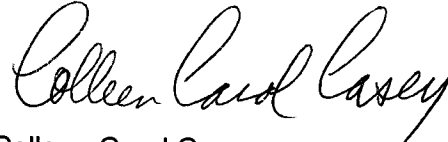

Please also be reminded of the provisions in 10 CFR 30.9(a), "Completeness and accuracy of information,"..."(a) Information provided to the Commission by an applicant for a license or by a licensee or information required by statute or by the Commission's regulations, orders, or license conditions to be maintained by the applicant or the licensee shall be complete and accurate in all material respects."
