Jason,

Thank you very much. I appreciate all that NRC is doing and Acuren Inspection will continue to strive to keep our program in compliance as required.

**Subject:** NRC Inspection of Acuren's St. Croix, USVI field office

Bruce,

Once again I'd like to thank you for you and your staff's time during the NRC inspection of the St. Croix, US Virgin Islands field office and our exit briefing this morning. As I mentioned during the exit briefing, no violations were identified during this inspection and its follow-up. The attached NRC inspection report (NRC Form 591M) documents the results of the inspection. This does not require you to take any action and you are not required to sign it or return it. I do however request a courtesy email response from you acknowledging receipt.

I did forget to mention on our call that because the inspection was conducted before the license transfer to the Region-III office for your new 'main' location in Duluth, Minnesota (effective 5/24/2016), this inspection will be issued under the 'old' Texas license and docket number. All future correspondence should use the 'new' license number (22-27593-01) and 'new' docket number (030-38913), and the NRC's Region-III office will have the lead for inspection and licensing for Acuren Inspection, Inc.

Thank you and please do not hesitate to contact either myself or Mr. Craig Gordon with any questions or concerns,
