MEMORANDUM TO: Donna Williams, Acting Chief
Licensing Branch 2
Division of New Reactor Licensing
Office of New Reactors

FROM: George F. Wunder, Senior Project Manager **/RAI/**
Licensing Branch 2
Division of New Reactor Licensing
Office of New Reactors

SUBJECT: SUMMARY OF THE JUNE 16, 2016, PUBLIC MEETING WITH KOREA
HYDRO AND NUCLEAR POWER CO. LTD. TO DISCUSS TOPICS
RELATED TO ADVANCED POWER REACTOR 1400 DESIGN

On June 16, 2016, the U.S. Nuclear Regulatory Commission (NRC) staff held a Category 1 public meeting with Korea Hydro and Nuclear Power Co. Ltd. (KHNP, or the applicant). The meeting focused on Request for Additional Information (RAI) 121-8050. A list of attendees is provided as an enclosure.

In RAI 8050 the staff requested that the applicant provide additional detail regarding the turbine speed control and turbine overspeed protection systems. The applicant maintained that, because no turbine has been selected for the APR1400 design, the applicant is not able to provide the requested information. The applicant maintained that it is more appropriate that this information be supplied by future combined license applicants.

The staff maintained that the requested information is required before the application can be considered complete; furthermore, the staff maintained that the information already submitted by the applicant can be further developed to provide more detailed functional descriptions of the turbine speed control and overspeed protection systems.

The applicant agreed to develop a draft response to RAI 8050 and submit it to the staff in the near future. This draft submittal will form the basis of a future public meeting between the staff and KHNP.

Docket No.: 52-046

Enclosure:
List of Attendees
