Region III
Materials Licensing Division

Re: Radioactive Materials License Number 21-05856-01

To Vered Shaffer:

This letter is in regards to control number 590870. From 2006 to February 2015 Daniel G. VanMassenhove was working as our companies Radiation Safety Officer. This was on an assistant basis under Dan Fluker for the first couple years, but then independently to present. On 2/27/15 Dan VanMassenhove left DPI and accepted a different job opportunity. At that time DPI removed Dan VanMassenhove as RSO from their nuclear license and added Guy Groomes as their RSO. Dan VanMassenhove is now back with DPI and has been asked to again gain the duties as our companies RSO. I have also attached a delegation of authority letter from the DPI. Dan VanMassenhove has formalized training, and is aware of the lock out procedures & documentation requirements.

Please contact me if you have any questions or need additional information. DPI looks forward to receiving this amendment to their license.

Sincerely,

Duncan Gray
Plant Manager

**Cc: Dan VanMassenhove, Shirley Jones, Len Werda, Guy Groomes, Mike Luffy,
Bob Budnik, Mike Cohoon**
