SUBJECT: ELEKTA, INC., VOIDANCE OF APPLICATION FOR LICENSE AMENDMENT,
CONTROL NO. 590701

Dear Mr. Yaeger:

This concerns the subject application for an Amendment to your material license received April 18, 2016. Because your application was not signed by a manager authorized to make binding commitments, and because you retracted your amendment request to add a Cobalt-60 Leksell Gamma knife teletherapy device to your license and to appoint Matthew Williams as a Radiation Safety Officer to Elekta, Inc., we have voided your application. This action is taken without prejudice to the resubmission of your request.

In accordance with Chapters 3 and 8.13 of NUREG-1556, Volume 18, "Consolidated Guidance About Material Licenses, Program-Specific Guidance About Service Provider Licenses", dated November 2000, representatives of a corporation or legal entity filing an application for an amendment should date and sign NRC Form 313. Representatives signing an application must be authorized to make binding commitments and sign official documents. Signing the application acknowledges management's commitment and responsibilities for the radiation protection program.

Sincerely,

Original signed by Laurie A. Kauffman
