Dear Mr. Persinko:

Reference US Nuclear Regulatory Commission (NRC) license number SUC-1593 (docket 040-09083) issued to HQ US Army Installation Management Command for possession of residual depleted uranium (DU) at the Army installations listed in license condition 8. Paragraph 2.4.4 of the radiation safety plan for this license (ML16004A369) requires the Army to inform the NRC of garrison radiation safety officer changes.

The Fort Polk garrison radiation safety officer (RSO) recently abruptly changed to Mr. Clifford Person. He meets all license-required qualifications. I have attached his contact information as well as the contact information for all other garrison RSOs.

You may reach me at (210) 466-0368 or robert.n.cherry.civ@mail.mil.

Sincerely,

A handwritten signature in black ink that reads "Robert N. Cherry".
