To Whom it may concern:

I am deeply concerned about the proposed uranium mining so very close to sacred lands in the Lakota Treaty Territories. There is no such thing as a safe dose of radiation and Indigenous Peoples have been targeted far too often with this most poisonous of industries. We do not need more weapons of war, and the nuclear power industry cannot compete economically with renewable energy technologies. Do not permit this atrocity, to do so would be one more step on the genocidal nuclear chain.
