SUBJECT: ACCEPTANCE OF THE DECOMMISSIONING PLAN FOR THE CIMARRON
FACILITY NEAR CRESCENT, OKLAHOMA FOR DETAILED TECHNICAL
REVIEW

Dear Mr. Halliburton:

By letter dated December 31, 2015 (Agencywide Documents Access Management System (ADAMS) Accession No. ML16230A614) the Cimarron Environmental Response Trust submitted a license amendment request for approval of its proposed Decommissioning Plan (DP).

During its administrative review of the submittal, the U.S. Nuclear Regulatory Commission (NRC) staff identified a few areas where additional information was needed before the proposed DP could be accepted for detailed technical review. This was documented in an April 7, 2016 letter to you (ADAMS Accession No. ML16091A427).

In response, Environmental Properties Management submitted supplemental information to the NRC by letter dated May 20, 2016 (ADAMS Accession No. ML16168A097).

The NRC staff has completed its administrative review of the December 31, 2015 and the May 20, 2016 submittals and has accepted the DP for detailed technical review.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
