SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Ms. Hobson:

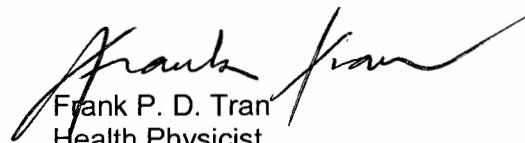

In the NRC Form 314 "Certificate of Disposition of Materials" dated June 21, 2016, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. Based on the review of the information you provided, the NRC staff determined that you have never possessed licensed materials since the license was issued; therefore, no further remediation or actions with respect to NRC regulated material is required. The NRC staff concluded that your facility is suitable for unrestricted use and NRC license number SUB-1601 is hereby terminated.

In the letter dated June 21, 2016, you provided a concern with regard to the license annual fee. Please be aware that fee collection function is under the Accounts Receivable Branch in the Office of Chief Financial Officer in NRC headquarters. On July 7, 2016, we contacted you by telephone and provided contact information regarding the license fee. Please contact Jawanza Gibbs-Nicholson at 404-997-4886 or Jawanza.Gibbs-Nicholson@nrc.gov for matters related to your license fee.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9887.

Sincerely,
