Hi Cameron,
Just read your email, just want to confirm that you would like to postpone the exam in September 2016 until February 2017.

Thanks,

John

That would be 2/27/2017 not 2016, right? :)

Good morning.

I had emailed Kenny Nguyen the other week that we needed to postpone our September 2016 exams, which would push them into 2017.

Ideally we would like 2 RO exams sometime in February or March (we are flexible) and 1/2 RO exams next September (the September would be for students that have completed the Reactor Operations course the previous Spring, however to this point I haven't found a motivated student to take it past the class but don't want to discourage them to not take it).

Thank you for your assistance.

Thanks,
Cameron

If you are planning on needing an Operator License Exam in FY2017,

please respond to this request for information.

Please state the following:

Projected examination dates (the week of), also please provide alternate dates.

Exam dates will be on a first come first served basis.

Projected number of applicants and types of licensees to be examined.

Respectfully,

Phillip T Young
