Rapiscan Systems Inc.  
ATTN: Mershad Shahabidin  
Radiation Safety Officer  
2805 Columbia Street  
Torrance, CA 90503

SUBJECT: AMENDED EXEMPT DISTRIBUTION LICENSE AND SEALED SOURCE AND  
DEVICE REGISTRATION CERTIFICATE

Dear Mr. Shahabidin:

Please find enclosed amended U.S. Nuclear Regulatory Commission (NRC) Exempt Distribution License No. 04-24011-01E, authorizing the distribution of trace chemical detectors and narcotics detectors to persons exempt from licensing pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 30, Section 30.20, or equivalent regulations of any Agreement State, as well as amended Sealed Source and Device Registration Certificate No. NR-1267-D-102-E.

Note that the format of your license has changed. The NRC changed the process for issuing licenses and established a format to clearly identify the authorized uses for each of the materials or products you are authorized to distribute. During this process, the NRC's standard license conditions also were revised to meet current NRC requirements and to be consistent among the NRC Headquarters and Regional Offices that issue the licenses. Please review your license carefully, and contact us if you have a question about this amendment format.

Review the enclosed documents carefully and be sure that you understand all the conditions. If there are any errors or questions, please contact us so that appropriate corrections and answers can be provided.

Please be advised that you must conduct your program involving radioactive materials in accordance with the conditions specified in your NRC license, representations made in your license application, and other rules, regulations, and orders of the NRC, now or hereafter in effect, to include the following:

1. Comply with applicable NRC regulations in 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material"; 10 CFR Part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material"; and other applicable regulations.

NOTE: Licensees authorized to distribute or initially transfer products containing byproduct material must also possess a valid possession license issued either by the NRC or an Agreement State(s) which authorizes possession and use of byproduct material.

2. Distribute only those products containing radioactive material which are specifically authorized in your license.

3. Notify NRC in writing within 30 days of any change in mailing address.
4. In accordance with 10 CFR 30.33, 30.34 and 30.38, please file appropriate documentation with the NRC prior to any changes to your organization, change locations of distribution of products containing radioactive material, facilities, equipment, procedures, change in the contact person or the person responsible for the quality assurance program for licensed activities, or any other changes in your program which are contrary to the license conditions or representations made in your license application and any supplemental correspondence with the NRC.
5. Submit a complete renewal application or termination request at least 30 days before the expiration date on your license. You should receive a reminder notice approximately 60 days before the expiration date. Continued distribution of products containing radioactive material after your license expires is a violation of NRC regulations.
6. In accordance with 10 CFR 30.36, request termination of your license if you plan to permanently discontinue activities involving distribution of products containing radioactive material.

You will be periodically inspected by the NRC. Failure to conduct your program in compliance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action(s) against you. This could include issuance of a notice of violation; proposed imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions" (NUREG-1600).

Please be aware that, as a holder of an NRC license and/or registration, you may be subject to the NRC's annual fees in accordance with 10 CFR Part 171. If you have any questions concerning the fee requirements, please contact the Accounts Receivable Branch at (301) 415-7554.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

M. Shahabidin
