ORGANIZATION

AECOM Technical Services

SUBJECT

license amendment request

SUMMARY

I spoke with the RSO today to go over everything to explain that because their office moved from Kansas to Missouri, we would have to terminate the Kansas based license and create a Missouri based license. I explained that everything would be the same in the license, but that the number would change because of how we do our numbering system for licenses. I also mentioned that since Kansas was an agreement state, we didn't need to have the storage location address on the NRC license and confirmed that she had updated AECOM's storage location with the state of Kansas. She understood and was appreciative of the call ahead of time to prevent confusion.
