NOTICE

This message is intended only for the use of the individual or entity to which it is addressed and may contain information that is privileged, confidential, or exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee responsible for delivering the message to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you received this communication in error, please notify the sender immediately by telephone and return the original to the above address, by U.S. Mail. Thank You.

Thank you for notifying us that H.H. Holmes Testing Laboratories, Inc. (NRC License 12-26781-01) has filed for bankruptcy. NRC requirements for licensees that are the subject of a bankruptcy filing can be found in 10 CFR (U.S. Code of Federal Regulations) 30.34(h). The purpose of the regulations is to ensure that public health and safety is adequately protected and that radioactive material is properly controlled. (Please see accompanying copy of 30.34 (h)).

The regulations state that the notification must include security requirements for portable gauges.

1. Please confirm for each portable gauge, that two independent physical controls are used to form a tangible barrier to secure portable gauges from unauthorized removal, whenever portable gauges are not under the control and constant surveillance of the licensee.
2. Because the regulations cited above require each licensee to provide the required notification, we request your assistance in providing to us the names, addresses and telephone numbers of any other entities who may be affected by the bankruptcy (i.e., other daughter companies of a bankrupt parent company, where the daughter has an NRC or Agreement State license).
3. Also, please provide the following additional information:
 - Please identify what radionuclides and /or nuclear gauges are possessed by your company at this time.
 - Please indicate if you plan to dispose of any of your radionuclides and /or nuclear gauges during bankruptcy proceedings.
 - For each of the radionuclides and /or nuclear gauge(s) identified above, please specify if the radionuclide(s) and or device(s) are in use or in secured storage at this time.
 - Please indicate if there has been in changes in the Radiation Safety Officer or authorized user(s) for the radionuclides and /or nuclear gauges.
 - Please specify the type of bankruptcy filed, such as Chapter 11, 12, or 13.

- Please describe any changes that are planned for the company operations and use/storage/disposition of the radionuclides and /or nuclear gauges during the bankruptcy proceedings.
- Please indicate the anticipated date when the bankruptcy will end.
- Please specify who will be the contact person and at what frequency will they update the NRC concerning any changes in the status of the radionuclides and /or nuclear gauge(s) or the bankruptcy proceedings. Please make sure you immediately contact the NRC of any change in status of use, security and/or storage of the radionuclides and /or nuclear gauges and any change in the individual(s) responsible for the radionuclides and /or nuclear gauge(s).
- Please identify any generally licensed radionuclides and/or nuclear gauge(s) you may possess at your facilities.

Please send a facsimile of your response to the above to William Reichhold at (630) 515-1078 as soon as possible. Please call me at (630) 829-9839 if you have any questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this facsimile and the attached documents will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

From the desk of:

Bill Reichhold
