

June 29, 2016

Mr. Richard P. McIntyre, Acting Chief
Quality Assurance Vendor Inspection Branch-2
Division of Construction Inspection and Operational Programs
Office of New Reactors
Nuclear Regulatory Commission
11545 Rockville Pike,
Rockville, MD 20852

SUBJECT: Response to request for additional information related to NRC Inspection Report 99901377/2012-201, specifically for NON 99901377/2012-201-02 and 99901377/2012-201-03 dated June 10, 2016.

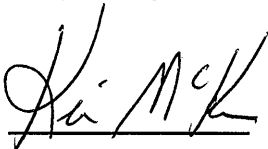

Mr. McIntyre,

We have reviewed the above subject letter and request for additional information. In accordance with the Agency request, attached are 2 copies of our records for your use. One (1) copy is fully un-redacted for your internal use in evaluating our actions in order to provide the agency with sufficient documentation to provide closure for the related ITTAC's. We request once their usefulness has been fulfilled, please destroy or return the un-redacted copy. The second copy is our redacted copy for your use to post in ADAMS for public viewing.

As previously communicated in our letter dated November 30, 2012: for NON 99901377/2012-201-02 had three (3) components that were addressed by our Corrective Actions numbered 2032 and 2034; for NON 99901377/2012-201-03 was addressed by our Corrective Action number 2033. The documents supporting the actions for corrective action closure are attached to their respective Corrective Action Request, and herein provided for your evaluation and use.

If you have further questions after reviewing our submittal, please contact myself at kmckown@curtisswright.com or our Quality Director, John DeKleine at rdekleine@curtisswright.com

Respectfully submitted,

Kevin McKown
General Manager
