

COMPATABILITY COMMENTS ON ALABAMA FINAL REGULATIONS  
NRC LETTERS DATED OCTOBER 15, 2015 AND DECEMBER 16, 2015

	State Section	NRC Section	RATS ID	Actions	Subject and Comments
1	420-3-26-.02(22)	30.13	2013-1	Revised .02(22)(b)	<p><b>Carriers</b></p> <p>AL 's regulation is more restrictive than the NRC's. AL needs to change 420-3-26-.02(22) to be essentially identical to 10 CFR 30.13. Section 420-3-26-.02(22) should read "Common and contract carriers, freight forwarders, and warehousemen are exempt from these rules to the extent that they transport or store radioactive material in the regular course of their carriage for another or storage incident thereto."</p> <p>AL needs to make the above change in order to meet the Compatibility Category B Designation assigned to 10 CFR 30.13.</p> <p><b>COMMENT STANDS FROM NRC LETTER DATED OCTOBER 15, 2015/ ML15252A240. AL INTENDS TO ADDRESS THIS COMMENT IN A FUTURE RULEMAKING/ ML15323A030.</b></p>
