SUBJECT: NOTICE OF AVAILABILITY AND REQUEST FOR COMMENTS ON DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR THE RENO CREEK IN SITU RECOVERY PROJECT IN CAMPBELL COUNTY, WYOMING, SUPPLEMENT TO THE GENERIC ENVIRONMENTAL IMPACT STATEMENT FOR IN-SITU LEACH URANIUM MILLING FACILITIES

Dear Ms. Lloyd:

The U.S. Nuclear Regulatory Commission (NRC) staff is reviewing a source and byproduct materials license application submitted by AUC, LLC, for the construction, operation, aquifer restoration, and decommissioning of the proposed Reno Creek In Situ Recovery (ISR) Project. The facility is proposed to be located in Campbell County, Wyoming.

As part of the review of the application, the NRC staff has prepared a draft Supplemental Environmental Impact Statement (SEIS) (NUREG-1910, Supplement 6). The draft SEIS includes an analysis of relevant environmental issues and documents the NRC staff's preliminary determinations regarding the environmental impacts from the construction, operation, aquifer restoration and decommissioning of the proposed Reno Creek ISR Project.

The NRC staff is enclosing two hardcopies and two CDs of the draft SEIS for your review and comments. The comment period for this action will end on September 6, 2016. Comments should be submitted in writing either by mail to Ms. Cindy Bladey, Office of Administration, Mailstop OWFN-12-H8, U.S. Nuclear Regulatory Commission, 11555 Rockville Pike, Rockville, Maryland 20852 (include Docket ID: NRC-2013-0164 in the subject line) or under Docket ID NRC-2013-0164 at: <http://www.regulations.gov>. The NRC staff will address your comments in the final SEIS.

The NRC Agencywide Documents Access and Management System (<http://www.nrc.gov/reading-rm/adams.html>) accession number for the draft SEIS is ML16181A082. The draft SEIS also may be accessed on the internet at: <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1910/>.

L. Lloyd
