July 21, 2016

Ms. Kimberly Manzione
Licensing Manager
Holtec International
Holtec Center
One Holtec Drive
Marlton, NJ 08053

SUBJECT: ACCEPTANCE REVIEW OF REQUEST FOR AMENDMENT NO. 11 TO
CERTIFICATE OF COMPLIANCE NO. 1014 FOR THE HI-STORM 100
MULTIPURPOSE CANISTER STORAGE SYSTEM

Dear Ms. Manzione:

By letter dated January 29, 2016 (Agencywide Document Access and Management System (ADAMS) Accession No. ML16029A528), as supplemented February 16, 2016 (ADAMS Accession No. ML16069A246) and June 6, 2016 (ADAMS Accession No. ML16159A344), and as modified April 22, 2016 (ADAMS Accession No. ML16113A394), Holtec International (Holtec) submitted an amendment request to the U.S. Nuclear Regulatory Commission (NRC) to revise Certificate of Compliance (CoC) No. 1014 for the HI-STORM 100 Multipurpose Canister Storage System.

The NRC staff has conducted an acceptance review of the application and determined that the application contains sufficient technical information to begin a detailed technical review. We have established a schedule for the review. The schedule allows for the staff to complete and issue the first request for additional information in September 2016, and a draft certificate of compliance and safety evaluation report for rulemaking in January 2017, based on Holtec responding to any request for additional information by October 2016. If no additional information is needed, the draft approval for rulemaking may be issued in July 2017.

Please reference Docket No. 72-1014 and CAC No. L25087 in future correspondence related to this licensing action. If you have any questions, please contact me at (301) 415-1018.

Sincerely,

/RA/
