Campbell, CA 95008

SUBJECT: CORRECTED CERTIFICATE OF COMPLIANCE NO. 9168, REVISION NO.23,
FOR THE MODEL NO. 8-120B PACKAGE

Dear Mr. Sisley:

On July 5, 2016, the NRC staff issued Certificate of Compliance (CoC) No. 9168, Revision No. 23, for the Model No. 8-120B package.

As explained in the Safety Evaluation Report (SER), Condition No. 10 of CoC Revision No. 22 which read: "The package may be used until September 30, 2016, with the drawings authorized in Revision No. 21 of this certificate" was no longer included in CoC Revision No. 23 because it became obsolete after all lids had been retrofitted on the Model No. 8-120B packages.

By a telephone conversation held on July 18, 2016, you requested that shipments for all contents, except grossly dewatered resins, can continue to be made under Revision No. 22 of the CoC until September 30, 2016. This letter provides the corrected page of the CoC for your incorporation.

If you have any questions regarding this matter, I may be contacted at (301) 415-7505.

Sincerely,

/RA J. McKirgan for/
