Subject: NFPA 805 PRA Update FAQ 16-0076
Date: Tuesday, July 26, 2016 9:42:23 AM
Attachments: [NFPA 805 PRA Update FAQ 16-0076 7_25_16 to NEI.doc](#)
Importance: High

Victoria,

Please see the attached for NRC's comments on FAQ 76 for the upcoming NFPA 805 FAQ meeting. This attachment only slightly modifies the June version which was sent to you earlier. The modification is in yellow.

With regards to industry's comment during the last FAQ meeting that their program is not called a "maintenance and update" program, please fix the FAQ with the proper language. I leave this to you since I noticed that industry has on a few instances in this FAQ referred to their program themselves as "maintenance and update," rather than "maintenance and upgrade." Please look at the terms used in the FAQ related to the PRA update, i.e. upgrade/maintenance/update, and make any changes to the existing language, should it be necessary.

Thanks for your assistance.

J.S.
