Discussion: Reference letter dated June 13 (ML16180A211)

I called Mr. Davidson and discussed the response. For item a, I asked if he needed different sources than was placed on his NRC License, Amendment No. 7. He said that he did not. On item f, I asked if he would be calibrating instruments and he said he would not be. They would use instruments that are calibrated from other Army Licensees. He did not respond to item #9 of the RAI which state that they cannot change procedures that are submitted to the NRC. He said that he understood that he could not change the specific procedures submitted to us.
