Subject: Transfer of Devices

Dear Director:

During a recent review of the radiation safety program at our facility located at 5457 West 79th Street; Indianapolis, IN, 46268; we discovered that the transfer of several generally licensed devices do not appear to have been reported to NRC. This letter serves to address that situation.

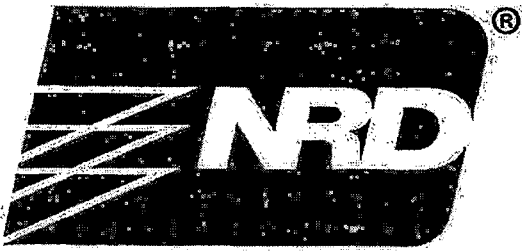

On 28 July 2015 and again on 3 March 2016, thirteen (13) nuclear static eliminators containing polonium-210 were returned to the manufacturer; NRD, LLC for disposal. Attached are the letters confirming receipt of those devices by NRD.

If you have any questions regarding this correspondence, please contact me at 651-736-0498 or 3M-RSO@MMM.com.

Sincerely,

A handwritten signature in black ink that reads "Michael Lewandowski".
