Pat –

I have made Jennifer's edits and have checked the document back into ADAMS. You can make the environmental changes now.

Thanks,
Jordan

Comments for this version:

- ~~Page 1, see my email from OGC — AP1000 should not be an acronym.~~
- ~~Page 13, delete “(ELAP)” — we don't use it again in the paper so it is not needed.~~
- ~~Page 35, fix reference 20 — should be two titles....”Draft Environmental....” Is the second title.~~
- ~~Page 14, in the revised text for Rec. 7.1, why did we delete the pointer to the writeup in the FSER? We have that pointer in the other recommendations.~~
- ~~Change “COL application” to “COLA” throughout (except in quoted titles).~~
- ~~Identify Levy consistently throughout — since we define the site as “Levy” early in the mods, there should be no reference to “LNP”.~~
- ~~You deleted definition of “ITAAC” — add back in first time used.~~

- ~~— Go back to the existing text for the nonconurrence at the end. Decision was made (and OGC agreed to) limited text.~~
 - ~~— You are missing a quotation mark in references 2 and 38.~~
 - ~~— “Hearing” is misspelled in reference 15.~~
 - ~~— Should titles be in quotation marks in references 17, 18 and 30?~~

Jennifer –

For your review and concurrence. Still waiting for Environmental inputs.

Nothing has been updated in ADAMS yet.

Thanks,

Jordan
