Assessment Manager
Louisiana Energy Services, LLC
P.O. Box 1789
Eunice, NM 88231

SUBJECT: ADMINISTRATIVE CORRECTION TO URENCO USA MATERIALS LICENSE
SNM-2010 AMENDMENT 74

Dear Mr. Thyne:

By letter dated February 29, 2016 (LES-16-00041-NRC), Louisiana Energy Services, LLC, dba URENCO USA (UUSA), requested that the U.S. Nuclear Regulatory Commission (NRC) review and approve a revised UUSA Standard Practice Procedure Plan (SPPP) for the Protection of Classified Matter (Agencywide Document Access and Management System [ADAMS] Accession No.: ML16064A024). This revision of the SPPP (Revision 15) replaced the existing licensing basis document listed in its materials license SNM-2010, License Condition (LC)-10h.

However, in addition to the change in LC-10h an administrative error included the addition of LC-34. The request for this LC had been withdrawn, and this change should not have been included in the license. Therefore, a replacement License Amendment 74, to SNM-2010, is attached to this letter with LC-34 removed.

Because all the activities noted above involve administrative actions, the NRC staff determined that the proposed activities do not individually or cumulatively have a significant effect on the human environment. Therefore, in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 51.22(c)(11), neither an Environmental Assessment nor an Environmental Impact Statement is warranted for this action.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter and the amended license will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's ADAMS, the list of individuals will be withheld as Proprietary Information. ADAMS is accessible from the NRC Web site at: <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

S. Thyne
