Subject: [External_Sender] Susquehanna Nuclear Power Plant (FWS#2016-1066)

Mr. Baum,

Thank you for your letter dated May 24, 2016, which provided the Fish and Wildlife Service (Service) with information regarding the Susquehanna Nuclear Power Plant's proposed ISFSI plan. The Susquehanna Nuclear Power Plant is located in Luzerne County, Pennsylvania. When an action agency determines a project will have "no effect" on federally listed species section 7 consultation with the Service is not required.

Please call or email if you have additional questions,

-Brian
