Ms. Kimberly Chaney
Acting Director
Office of Southwestern Area Programs
U. S. Department of Energy
Room 2153, Cloverleaf Bldg.
19901 Germantown Road
Germantown, Maryland 20874

SERVED MAY 27 1999

Dear Ms. Chaney:

On June 17, 1999, the Nuclear Regulatory Commission will hold a public meeting on uranium recovery regulation at its headquarters in Rockville, Maryland. Participants at the meeting will include the State of Utah, the United States Department of Energy, the Conference of Radiation Control Program Directors, and the National Mining Association. The purpose of the meeting is, first, to discuss three recent Commission papers in the area of uranium recovery regulation: "Draft Rulemaking Plan: Domestic Licensing of Uranium and Thorium Recovery Facilities -- Proposed New Part 41" (SECY-99-11); "Use of Uranium Mill Tailings Impoundments for the Disposal of Waste Other than 11e.(2) Byproduct Material and Reviews of Applications to Process Material Other than Natural Uranium Ores" (SECY-99-12); and "Recommendations on Ways to Improve the Efficiency of NRC Regulation at *in Situ* Leach Uranium Recovery Facilities" (SECY-99-13). In addition, the meeting will discuss interpretations of current requirements, such as those on alternate feed criteria and groundwater regulation, and the need, if any, for additional NRC regulations in this area.

All of these are generic issues, of broad applicability to the NRC's activities, and the purpose of the June 17 meeting is to discuss them on a generic basis. At the same time, however, aspects of some of these same or related issues are currently being litigated in three adjudications (informal proceedings conducted under 10 C.F.R. Part 2, Subpart L, of the NRC's procedures) now in progress before Presiding Officers: *Hydro Resources, Inc., International Uranium Corp. -- IUSA* (MLA-4), and *International Uranium Corp. -- IUSA* (MLA-5). Accordingly, to

SECY-EHD-001

20444

assure that the June 17 discussions do not result in any prejudice to the ongoing adjudications, this cautionary letter is being sent to all participants in the June 17 meeting, with copies to the service list in each of the three adjudications.

Because the Commission is the appellate body in each of the pending adjudications, it will not entertain, in the June 17 meeting, any arguments or discussions of case-specific issues currently in litigation before Presiding Officers. Participants are cautioned not to discuss specific fact situations and specific issues involved in those proceedings. The Commission wishes to emphasize that the June 17 meeting is to be restricted to the consideration of generic issues, and the Commission will not hesitate to enforce this restriction.

Nevertheless, the Commission recognizes the possibility that participants in the meeting may make statements or comments that are closely enough related to issues involved in the three ongoing proceedings as to raise concerns on the part of parties to those proceedings. For that reason, the Commission wishes to give notice to the parties to the adjudications that the meeting has been scheduled; to inform them that they are welcome to attend; to inform them as well that the full transcript of the meeting, as well as any materials proffered by the meeting participants, will promptly be placed in the NRC's Public Document Room; and that if circumstances should so warrant, the parties to the adjudications will be provided an opportunity to submit written comments on the statements and discussions that take place at the June 17 meeting to the dockets in the pending adjudications.

Sincerely,

A handwritten signature in cursive script, appearing to read "Annette Vietti-Cook".
