## **AFFIDAVIT**

STATE OF WASHINGTON	)	
		SS
COUNTY OF BENTON	)	

- 1. My name is Timothy J. Tate. I am the Manager, Environmental, Health, Safety, & Licensing for AREVA Inc. ("AREVA") at AREVA's Richland, Washington facility and as such I am authorized to execute this Affidavit.
- 2. I am familiar with the criteria applied by AREVA to determine whether certain AREVA information is proprietary. I am familiar with the policies established by AREVA to ensure the proper application of these criteria.
- 3. I am familiar with the AREVA information contained in the enclosed materials as requested by Nick Baker, NRC Inspector, for inspection and follow-up evaluation purposes and referred to herein as "Documents". Information contained in these documents is considered by AREVA as proprietary in accordance with the policies established by AREVA.
- 4. These Documents contain information of a proprietary and confidential nature and of the type customarily held in confidence by AREVA and not made available to the public. Based on my experience, I am aware that other companies regard information of the kind contained in these Documents as proprietary and confidential.
- 5. These Documents have been made available to the U.S. Nuclear Regulatory Commission in confidence with the request that the information identified and contained in these Documents be withheld from public disclosure. The request for withholding of proprietary information is made in accordance with 10 CFR 2.390. The information for which withholding from disclosure is requested qualifies under 10 CFR 2.390(a)(4) "Trade secrets and commercial or financial information".

- 6. The following criteria are customarily applied by AREVA to determine whether information should be classified as proprietary:
  - (a) The information reveals details of AREVA's methods and techniques to provide management controls.
  - (b) Use of the information by a competitor could permit the competitor to significantly reduce its expenditures, in time or resources, to design, produce, or market a similar product or service.
  - (c) The information reveals certain distinguishing aspects of procedures, methodology, or components, the exclusive use of which provides a competitive advantage for AREVA in product optimization or marketability.
  - (d) The information is vital to a competitive advantage held by AREVA, would be helpful to competitors to AREVA, and would likely cause substantial harm to the competitive position of AREVA.

The information identified in these Documents is considered proprietary for the reasons set forth above. In particular, AREVA has expended considerable sums of money to develop the technical information in certain of these documents. The release of the AREVA documents would allow a competitor to benefit from this technical information without incurring the significant expense of having to develop that information.

- 7. In accordance with AREVA's policies governing the protection and control of information, proprietary information contained in these Documents has been made available, on a limited basis, to others outside AREVA only as required and under suitable agreements providing for nondisclosure and limited use of the information.
- 8. AREVA policy requires that proprietary information be kept in a secured file or area and distributed on a need-to-know basis.

## Proprietary Information submitted under 10 CFR § 2.390

9. The foregoing statements are true and correct to the best of my knowledge, information, and belief.

> Timothy J. Tate, Manager Environmental, Health, Safety, & Licensing AREVA Inc.

> > **Notary Public**

SUBSCRIBED before me this 28th day of July, 2016.

Mary Anne Heilman
NOTARY PUBLIC, STATE OF WASHINGTON
