Subject: Request for NRC Staff Questions

Debbie,

While I was out Wednesday and Thursday, you left me a voicemail regarding a meeting summary. I assume that you are referring to a recent meeting summary issued on July 29, 2016, since you stated in voicemail that it was a meeting summary you had just received. Let me know if you are talking about a different summary.

Your voice message mentioned to you interested in obtaining copies of questions the NRC staff had asked NextEra to respond to but that these “weren’t discussed in the meeting,” and you also made mention of the application to renew the operating license.

This summary, again assuming it is the summary from July 29th, was for a meeting (which was held on June 15th) regarding NextEra’s plans to submit a future license amendment to revise the licensing basis at Seabrook to account for ASR impacts for its current operating license. There are no formal questions the NRC staff has asked regarding the topic of the meeting since, at the time of the meeting, NextEra had not submitted this application for review.

I believe what you might be interested in, are the requests for information that the staff has asked regarding ASR as they pertain to license renewal application. If this is the information that looking for me to provide, please confirm and I’ll be happy to provide you with those requests. If this is not the information you are seeking, I would appreciate any clarification you can give me in order for me to find what you’re looking for.

Thanks.
