August 2, 2016

Subject: Submission of APP-GW-GAH-041, Revision 0, formerly, CMS-720-03-PL-00020-A, Revision 0, Quality Assurance Program Description as a result of the acquisition of CB&I (Chicago Bridge & Iron) by Westinghouse (Original submission January 8, 2016 - ML16013A046)

The purpose of this letter is to submit the subject document for information purposes to the U.S. Nuclear Regulatory Commission as part of the transition of Topical Report CMS-720-03-PL-00020-A, Revision 0, CB&I (Chicago Bridge & Iron) Quality Assurance Program Description to CB&I Stone & Webster Quality Assurance Program Description APP-GW-GAH-041, Revision 0, formerly, CMS-720-03-PL-00020-A, Revision 0, CB&I Quality Assurance Program Description. As of December 31, 2015, Westinghouse Electric Company acquired the nuclear business of CB&I. The Topical Report and CB&I Quality Assurance Program Description was revised to reflect the current organizational structure of the new company.

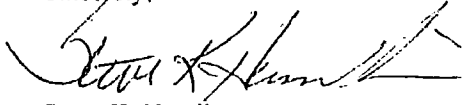

No reductions in commitment have been taken in the new Program Description. In terms of the Description substance, only the organization has been changed. Further, all former CB&I procedures will remain in place until an integration with Westinghouse can take place. An Integration Plan was initiated on December 31, 2015; the intention of the Plan is to bring the new company under the Westinghouse Quality Management System. However, during the Integration phase, the CB&I Stone & Webster Quality Assurance Program Description APP-GW-GAH-041, Revision 0, formerly, CMS-720-03-PL-00020-A, Revision 0, CB&I Quality Assurance Program Description will stand and provide adequate assurance of an acceptable QA Program for the transition phase.
