and Waste Programs
Office of Nuclear Material Safety
and Safeguards

FROM: Ted H. Carter, Senior Project Manager /RA/
Reactor Decommissioning Branch
Division of Decommissioning, Uranium Recovery
and Waste Programs
Office of Nuclear Material Safety
and Safeguards

LICENSEE: Water Remediation Technology LLC

SUBJECT: SUMMARY OF THE AUGUST 2, 2016, PRE-SUBMITTAL
PUBLIC MEETING WITH WATER REMEDIATION TECHNOLOGY
REGARDING RENEWAL OF WRT's MATERIAL LICENSE,
NO. SUC-1591

Background

On August 2, 2016, a Category 1 public meeting was held between U.S. Nuclear Regulatory Commission (NRC) staff and representatives of Water Remediation Technology at NRC headquarters in Two White Flint North, 11545 Rockville Pike, Rockville, Maryland. The purpose of the meeting was to discuss renewal of Water Remediation Technology LLC's (WRT's) NRC Source Material License, No. SUC-1591. WRT's current license expires January 25, 2017.

The meeting notice can be found in the Agencywide Documents Access and Management System (ADAMS) Accession No. ML16204A123. A list of attendees is provided in Enclosure 1.

Meeting

On August 2, 2016, the NRC staff held a public meeting with WRT to discuss submittal of their license action request regarding renewal of their NRC Source Material License. During the meeting, representatives from WRT gave a presentation on their strategy and timeline. This presentation is provided as Enclosure 2 and can be found in ADAMS Accession No. ML16221A588.

During the meeting, WRT gave a current status of their water treatment systems and lessons learned from initial license term. WRT gave clarifications to the license's scope and focused on existing license conditions which WRT will likely request NRC to review and consider deleting based on WRT having no control over the location of a treatment site, therefore, license conditions related to siting seem inappropriate. WRT will also propose to continue with the same format for financial assurance that was approved for the original license: 1) WRT's Client Community Water Systems (CWS) may provide the financial assurance arrangement on behalf of WRT, the licensee, and 2) In the case of a government-entity CWS, the CWS can use a Statement of Intent as one of the allowed arrangements.

No Public Meeting Feedback forms were received.

Please direct any inquiries to me at 301-415-5543 or by e-mail at ted.carter@nrc.gov.

Docket No. 04-9059
License No. SUC-1591

Enclosures:

1. List of Attendees
2. Power Point Presentation
