SUBJECT
PETNET's 5/2/16 letter requesting an amendment to the above licenses.

SUMMARY AND ACTION REQUIRED (IF ANY)
In a letter dated May 2, 2016, PETNET requested that two individuals be named as authorized users on the above licenses, for non-medical use.

The pharmacy license does not authorize non-medical use, and since neither individual is a pharmacist, they cannot be named as authorized users on the nuclear pharmacy license. Therefore this action (C/N 590827) cannot be completed and should be voided.

With regard to adding the proposed individuals as users to the cyclotron license (C/N 590828), there is not enough information to demonstrate that the individuals meet the training and experience recommendations described in NUREG-1556, volume 21.

Roger agreed with voiding the May 2 amendment request for both licenses, and will resubmit the request for the cyclotron license at a later date.
