SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-269/95-03, 50-270/95-03 AND
50-287/95-03)

Gentlemen:

This refers to the inspection conducted by P. E. Harmon of this office on February 26 - March 25, 1995. The inspection included a review of activities authorized for your Oconee facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, certain activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). The violation is of concern because it involved QA-1 calculation errors that resulted in non-conservative Keowee Hydro Unit operation such that Keowee units were technically inoperable due to overspeed vulnerability. We are also concerned that your independent review process did not identify these errors.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with the NRC regulatory requirements.

In accordance with 10 CFR 2.970 of the NRC's "Rules of Practice", a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96-511.
