U.S. Nuclear Regulatory Commission
11555 Rockville Pike
Rockville, MD 20852-2738

Attn: Document Control Desk

Subject: Submittal of the Current Version of the NAC-MPC® Multi-Purpose Storage System Final Safety Analysis Report (FSAR), Revision 10, to support the WCS-CISF Application Review

References: Docket No. 72-1025, NAC-MPC Multi-Purpose Storage System, U.S. Nuclear Regulatory Commission (NRC) Certificate of Compliance (CoC) No. 1025, Amendment 6, October 4, 2010

The April 28, 2016 Part 72 Docket No. 72-1050 application by Waste Control Specialist's (WCS) incorporated by reference the U.S. Nuclear Regulatory Commission's (NRC's) approval of the NAC International, NAC-MPC multi-purpose storage system. NRC Staff recently requested that copies of the FSAR be submitted to the NRC such that it may be incorporated into ADAMS to facilitate agency review.

Accordingly, NAC International provides this submittal of the current FSAR for the NAC-MPC Multi-Purpose Storage System, Docket No. 72-1025. This FSAR is based on NAC International's system for maintaining the FSAR current and is complete and accurate to the best of our knowledge, information and belief. The materials to be docketed are being provided in hard copy. This submittal is to provide a consolidated FSAR and is not associated with any Docket No. 72-1025 licensing action.

If you have any comments or questions, please contact me on my direct line at 678-328-1236.

Sincerely,

Wren Fowler
Director, Licensing
Engineering
