SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 21-32836-01

Dear Mr. Carlson:

In NRC Form 314, "Certificate of Disposition of Materials" dated July 18, 2016, you contacted the U.S. Nuclear Regulatory Commission (NRC) and indicated that you wished to terminate NRC radioactive material license no. 21-32836-01. The NRC staff has reviewed the final status surveys provided and based on its review, the staff has concluded that all licensable radioactive material has been removed from the facilities and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility at Suite 100, 30801 Schoenherr Road, Warren, Michigan is suitable for release for unrestricted use and NRC license number no. 21-32836-01 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions, please contact me at (630) 829-9842.

Sincerely,
