Gurnee, IL 60031

SUBJECT: DISBURSEMENT OF FUNDS FROM FMRI's DECOMMISSIONING TRUST  
PURSUANT TO 12-MONTH FORBEARANCE AGREEMENT

Dear Ms. Amstutz:

The U.S. Nuclear Regulatory Commission (NRC), the U.S. Department of Justice, and the Oklahoma Department of Environmental Quality have entered into a 12-Month Forbearance Agreement with Fansteel and FMRI. In Condition 5.G of that Agreement, the NRC committed to direct disbursement of funds from the Decommissioning Trust to pay for the shipment and disposal costs for the Work In Progress (WIP) material that was bagged prior to June 1, 2015, as well as "newly excavated WIP material." An amount of \$91,300 was confirmed to be deposited into the Trust by FMRI prior to February 29, 2016, and was used to pay for shipment and disposal of newly excavated WIP materials bagged after June 1, 2015. In addition, \$40,000 for each of 3 months (April, May, June) was confirmed to be deposited and \$42,000 was deposited during the month of July and will be used to pay for the shipment and disposal of newly excavated WIP materials that occur after February 2016 (even though the amounts are inconsistent with Condition 5G).

Condition 5.G states the following (Trust-related sections highlighted):

All WIP material stored in buildings on the Muskogee site as of June 1, 2015, shall be shipped to White Mesa with shipments to be completed by February 29, 2016. As of June 1, 2015, this is estimated to be in the amount of approximately 1,000 bags or 1,500 tons. The transportation and disposal costs associated with the disposition of this material will be allocated from the Decommissioning Trust to the approximate amount of \$628,000 ("the Trust Funds"). Payments will be made upon a showing to the NRC's reasonable satisfaction that FMRI has fully complied with shipping requirements of past Forbearance Agreements. If FMRI is unable to do so, the amount available from the Decommissioning Trust Fund shall be reduced by the tonnage of the arrearage times, the per ton transportation, and disposal cost. If circumstances beyond FMRI's control require adjustment of the February 29, 2016, completion date, FMRI shall notify the DOJ, NRC, and ODEQ in writing of such circumstances prior to the completion date. On or before February 29, 2016, FMRI shall begin shipment of the WIP material that will have been excavated after June 1, 2015 (the "Newly Excavated WIP Material"). Between February and July 2016, FMRI shall ship the Newly Excavated WIP Material at the rate specified in the 5.C Work Plans, making at least three shipments of 11 intermodals each. **On or before February 29, 2016, and for each shipment**

thereafter, FMRI shall deposit \$91,300 in the Decommissioning Trust to provide for the expense of transporting and disposing one shipment of 11 intermodals. The NRC shall make these funds available for payment of shipping and disposal costs when shipment and disposal have been completed. If, for any of these shipments and disposals, the \$91,300 amount is insufficient to cover the actual cost due to variations in shipment and disposal weight, it will be the responsibility of FMRI to pay the difference. If the \$91,300 proves to be in excess of the actual costs due to variations in shipment and disposal weights, then the excess may be refunded to FMRI or utilized to offset future deficiencies. If the 5.C Work Plans require FMRI to lease additional intermodals, additional funding from the Trust Fund will be provided at the rate of \$550 per intermodal.

In order for the funds to be released from the Decommissioning Trust, FMRI is to provide the NRC the following information:

Letter addressed as follows:

ATTN: Document Control Desk  
Director, Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
11555 Rockville Pike  
Rockville, MD 20852

With cc's to:

Christina England, NRC/GCLR/RMR  
Greg Chapman, NRC/NMSS/DUWP/MDB  
Pam Dizikes, Oklahoma Department of Environmental Quality  
Jeanette Amstutz, Norstates Wealth Management  
Richard Gladstein, Department of Justice

The request for payment should include the following:

- a copy of the invoice associated with the payment request;
- the name, address, telephone number, e-mail address and the contact person for the entity that would receive payment;
- the preferred method of payment by the entity receiving payment, (i.e., electronic bank transfer or check); and
- certification by a Fansteel or FMRI company officer that the payment is for FMRI newly excavated WIP material.

The requested payment will be remitted directly to the billing entity from the Decommissioning Trust.

Upon the NRC's confirmation of the accuracy of the information and the appropriateness of the billing, the NRC will issue you instructions in accordance with the following condition of the FMRI Decommissioning Trust Agreement, dated November 18, 2003:

In addition, the Trustee shall make payments from the Fund, as the NRC shall direct, in writing, to provide for payment of the costs of required activities covered by this Agreement. The Trustee shall make payments to the Grantor or other persons as specified by the NRC from the Fund for expenditures for required activities in such amounts as the NRC shall direct in writing.

For each qualified payment request from FMRI associated with Condition 5.G, you will receive a letter of instruction from the NRC. Representatives from Fansteel or FMRI should not be contacting you to request these payments as stipulated by Condition 5.G of the 12-Month Forbearance Agreement. On July 25, 2016, FMRI submitted its seventeenth request to the NRC related to Condition 5.G.

FMRI requested that the amount of \$21,906.13 associated with Energy Fuel Resources (USA), Inc. (EFR), invoice number FMRI-160629 be paid to:

Energy Fuel Resources (USA), Inc.  
225 Union Blvd St. 600  
Lakewood, CO 80228  
E-mail: [pantony@energyfuels.com](mailto:pantony@energyfuels.com)  
Contact: Paul Antony  
Method of payment: Check

The NRC has reviewed the invoices, information, and certification provided by FMRI. Based upon the information provided, the NRC has confirmed the amount for the invoice from EFR addresses processing cost for 9 intermodals of newly excavated WIP material. Therefore, consistent with the FMRI Decommissioning Trust, a check for \$21,906.13 can be issued to EFR.

Please e-mail Mr. Greg Chapman of the NRC and Mr. Paul Antony of EFR when the check to EFR is transmitted. Mr. Chapman's e-mail address is [Gregory.Chapman@nrc.gov](mailto:Gregory.Chapman@nrc.gov) and Mr. Antony's e-mail address is [pantony@energyfuels.com](mailto:pantony@energyfuels.com).

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
