NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 26, 2016

Mr. Wilfrid Cleveland, President
Ho-Chunk Nation
W9814 Airport Road
P.O. Box 667
Black River Falls, WI 54615

SUBJECT: NOTICE OF AVAILABILITY OF THE FINAL SUPPLEMENTAL
ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL
OF LASALLE COUNTY STATION, UNITS 1 AND 2

Dear President Cleveland:

Please find enclosed a copy of the final NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 57, Regarding LaSalle County Station, Units 1 and 2." The final Supplemental Environmental Impact Statement (SEIS) is being issued as part of the U.S. Nuclear Regulatory Commission's (NRC's) process to decide whether to issue a renewed operating license to Exelon Generation Company, LLC for LaSalle County Station, Units 1 and 2 (LSCS). In the final SEIS, the NRC staff determined that the adverse environmental impacts of license renewal for LSCS are not so great that preserving the option of license renewal for energy planning decision-makers would be unreasonable. In the context of the National Historic Preservation Act of 1966, NRC staff determined that no historic properties would be affected by the proposed action (license renewal). The final Environmental Impact Statement will accompany the final Safety Evaluation Report to be considered in the Commission's license renewal decision making process.

If you have any questions regarding this matter, please contact Robert Hoffman, Environmental Scientist, at 301-415-1107 or by e-mail at Robert.Hoffman@nrc.gov.

Sincerely,

/RA/
