Dear Shirley:

This was the letter I was referring to in an earlier email—I, fortunately, had it archived. As stated in my previous email, we are awaiting CA and PA licenses. I am just finishing up the PA license document at this time. I can get the LEDVANCE transfer of ownership to you within a few days.

The markings will be on the immediate bulk container or on the immediate package, in accordance with 10CFR 32.15(d). The outer shipping container will not be labeled.

We request an extension on this for a period of one month to allow all documents to come in and be assembled. In addition, we will submit the application for OSRAM Sylvania, Inc, for an E-Distribution License at the same time, so that these two documents can be processed simultaneously. As discussed previously, this is a vital step in our license process in order to assure uninterrupted

operations for both OSRAM Sylvania, Inc and LEDVANCE LLC.

If this email is not deemed enough , we can put this onto our letterhead and submit it formally.

Again, thank you for your patience with respect to this matter.
