

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

REGION III  
2443 WARRENVILLE RD. SUITE 210  
LISLE, IL 60532-4352

AUG 11 2016

John D. Mellen, M.D.  
Radiation Safety Officer  
Radiology Associates, P.C.  
1801 Harvest Lane  
Bloomfield Hills, MI 48302

Dear Dr. Mellen:

Enclosed is Amendment No. 62 to your NRC Material License No. 21-16754-01 in accordance with your request to transfer your Waterford, Michigan location of use to another NRC licensee, McLaren Oakland, NRC Material License No. 21-04081-03. Please note that we have also deleted Condition No. 13 in accordance with current NRC policy to include the reference to Title 10 of the *Code of Federal Regulations*, Part 71, "Packaging and Transportation of Radioactive Material," in the preamble, on page 1 of the license. Finally, we have added NRC's Agencywide Documents Access and Management System (ADAMS) document accession numbers to the documents referenced in Condition No. 13 to the amended license.

The NRC staff has noted that, although your request included status surveys and leak tests as of June 16, 2016, it did not include final status surveys. However, based on its review of information provided, the staff has concluded that all licensable radioactive material located at your Waterford, Michigan location of use has been transferred from Radiology Associates, P.C., NRC license number 21-16754-01, to McLaren Oakland, NRC license number 21-04081-03.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required at 3550 Pontiac Lake Road, Waterford, Michigan, on the part of Radiology Associates, P.C.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

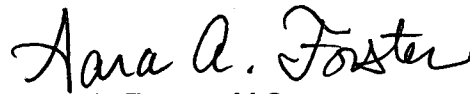

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

J. Mellen

In accordance with 10 CFR 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "Sara A. Forster".
