Subject: Status update on PRM-50-113

Dear Dr. DeVolpi:

This e-mail provides an update to your petition for rulemaking (PRM) docketed as PRM- 50-113. The PRM requested that the NRC revise certain regulations to require 'installation of ex-vessel instrumentation for uninterrupted monitoring of coolant and fuel in reactors and spent-fuel pools. These regulations are found in Part 50 of Title 10 of the Code of Federal Regulations.

The NRC published a notice of receipt of PRM-50-113 in the Federal Register (FR) on December 1, 2015 at 80 FR 75009. The NRC will continue to evaluate the issues raised by the PRM.

You can monitor the docket for your petition on the Federal rulemaking Web site at <http://www.regulations.gov> by searching on Docket ID NRC-2015-0230. The Federal rulemaking Web site allows you to receive alerts when changes or additions occur in a docket folder.
