Subject: change of materials and forms on license

Discussion: I informed the licensee that the way the license was written did not conform to current standards. For a D&D licensee which is not subject to FA the forms of materials should be "Any". If sealed sources are specified then the manufacturer and model number of all sources must be included on the license. Changes would be made to the materials and forms of materials to eliminate sealed sources from the license and conditions would be updated as well.
