NUCLEAR REGULATORY COMMISSION

REGION III
2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

AUG 11 2016

Mahmood A. Khalid, M.D.
Radiation Safety Officer
McLaren Oakland
50 North Perry Street
Pontiac, MI 48342

Dear Dr. Khalid:

Enclosed is Amendment No. 56 to your NRC Material License No. 21-04081-03 in accordance with your letter dated June 27, 2016 (ML16183A331). Please note that we have added Roshan Pai, M.D., as an Authorized User (AU) in accordance with your July 21, 2016 letter (ML16211A427). We have also deleted Condition No. 13 in accordance with current NRC policy to include the reference to Title 10 of the *Code of Federal Regulations*, Part 71, "Packaging and Transportation of Radioactive Material," in the preamble, on page 1 of the license.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Concerning your July 21, 2016 request (ML16211A427) to add Dr. Pai as an AU, note that his authorization for 10 CFR 35.300 material is limited to the of oral administration of sodium iodide I-131 in accordance with authorizations listed on NRC License No. 21-04080-01, referenced in your letter.

We were also unable to replace Mahmood Khalid, M.D. with Dr. Pai as Radiation Safety Officer (RSO), as requested in your July 21, 2016 letter (ML16211A427). **As communicated via phone to your physics consultant Laura Luna, on August 11, 2016, additional information is needed to confirm that Dr. Pai has completed radiation safety training as required by 10 CFR 35.50(c)(2) and 35.50(e).**

To remove Dr. Khalid and add Dr. Pai as the RSO for the above-referenced license, please resubmit your request under a signed and dated cover letter, including the letter of understanding – designating Dr. Pai as RSO – enclosed with your July 21, 2016 letter. **The resubmittal should include an updated NRC Form 313A (RSO) including the following:**

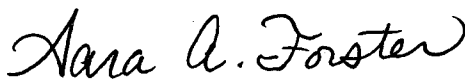

- A completed table 3.c. on page 3 of the form, indicating RSO training for 10 CFR 35.100, 35.200, 35.300, 35.400, and 35.500 uses;
- An indication in Item 4, on page 4 of the form, that approval is sought using the 10 CFR 35.30(c)(2) pathway – for a current AU;
- An acknowledgement from you, as preceptor, on pages 5 and 6 of the originally submitted preceptor attestation concerning updates to the NRC Form 313A (RSO).

Submission of your response as a pdf file attached to an email to sara.forster@nrc.gov or via facsimile to (630) 515-1078 will allow for the quickest processing. Do not hesitate to call me at (630) 829-9892 with any questions you may have in responding to this request.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Sara A. Forster, M.S.
