

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION IV
1600 E. LAMAR BLVD
ARLINGTON TX 76011-4511

August 18, 2016

Mr. Douglas R. Johnston
Radiation Safety Officer
MET-CHEM Testing Laboratories of Utah, Inc.
65 W. Louise Avenue
Salt Lake City, UT 84115-3440

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 43-27362-01

In accordance with NRC Order dated June 21, 2016, which became effective on July 13, 2016, revoking license number 43-27362-01 for nonpayment of license fee, NRC license number 43-27362-01 is hereby terminated.

NRC license number 43-27362-01 authorizes work at temporary job sites in NRC jurisdiction and no permanent radiographic installations or field stations in NRC jurisdiction are identified in this license. Therefore, there are no locations in NRC jurisdiction that need to be release for unrestricted use. Based on a review of your historical file, the staff concluded that all licensable radioactive material is being stored under the terms and conditions of a State of Utah radioactive materials license. No further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 05 to License No. 43-27362-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres, M.S., Senior Health Physicist
Nuclear Materials Safety Branch B
