

Dear FOIA Requester:

The FOIA Improvement Act of 2016, which was enacted on June 30, 2016, made several changes to the Freedom of Information Act (FOIA). Federal agencies must revise their FOIA regulations to reflect those changes by December 27, 2016. In addition to revising our regulations, we intend to update the Form 464, which we use to respond to FOIA requests.

In the interim, please see the comment box in Part I.C of the attached Form 464. The comment box includes information related to the recent changes to FOIA that is applicable to your FOIA request, including an updated time period for filing an administrative appeal with the NRC.

Sincerely yours,

Stephanie Blaney /S/

Stephanie Blaney
FOIA Officer (Acting)

RESPONSE TO FREEDOM OF INFORMATION ACT (FOIA) REQUEST

2016-0638

1

RESPONSE TYPE INTERIM FINAL

REQUESTER:

Jennifer Rimer

DATE:

08/17/2016

DESCRIPTION OF REQUESTED RECORDS:

Memo or directive establishing the NRC's Cyber Security Directorate; the charter for the directorate and an organization chart for the directorate.

PART I. -- INFORMATION RELEASED

- Agency records subject to the request are already available in public ADAMS or on microfiche in the NRC Public Document Room.
- Agency records subject to the request are enclosed.
- Records subject to the request that contain information originated by or of interest to another Federal agency have been referred to that agency (see comments section) for a disclosure determination and direct response to you.
- We are continuing to process your request.
- See Comments.

PART I.A -- FEES

AMOUNT*

\$

0.00

*See Comments for details

- You will be billed by NRC for the amount listed.
- None. Minimum fee threshold not met.
- You will receive a refund for the amount listed.
- Fees waived.

PART I.B -- INFORMATION NOT LOCATED OR WITHHELD FROM DISCLOSURE

- We did not locate any agency records responsive to your request. *Note:* Agencies may treat three discrete categories of law enforcement and national security records as not subject to the FOIA ("exclusions"). 5 U.S.C. 552(c). This is a standard notification given to all requesters; it should not be taken to mean that any excluded records do, or do not, exist.
- We have withheld certain information pursuant to the FOIA exemptions described, and for the reasons stated, in Part II.
- Because this is an interim response to your request, you may not appeal at this time. We will notify you of your right to appeal any of the responses we have issued in response to your request when we issue our final determination.
- You may appeal this final determination within 30 calendar days of the date of this response by sending a letter or email to the FOIA Officer, at U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or FOIA.Resource@nrc.gov. Please be sure to include on your letter or email that it is a "FOIA Appeal."

PART I.C COMMENTS (Use attached Comments continuation page if required)

In conformance with the FOIA Improvement Act of 2016, the NRC is informing you that you have the right to seek assistance from the NRC's FOIA Public Liaison.

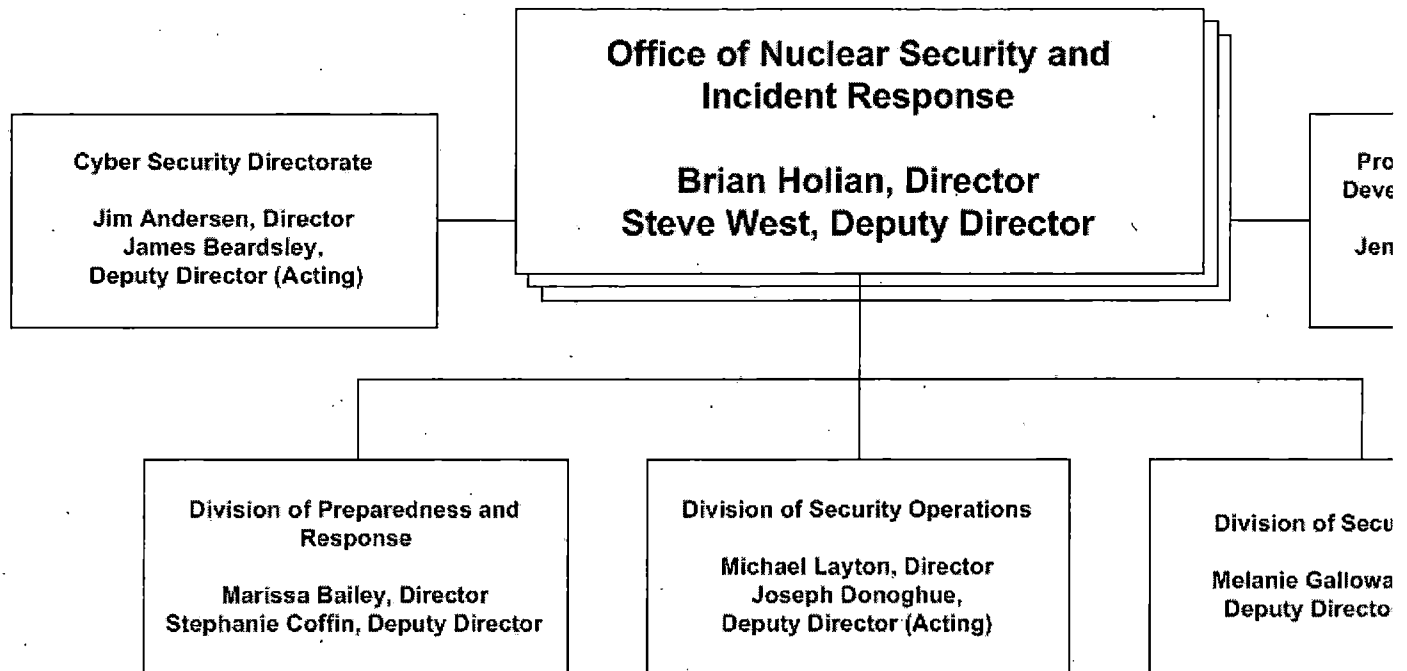

Response records are enclosed.

Organizational Chart

Office of Nuclear Security and Incident Resp

Functional Statement

Cyber Security Directorate

Director: Jim Andersen

Deputy Director: James Beardsley

Plans, coordinates, and manages agency-wide activities related to cyber security at NRC licensee facilities. rulemaking, licensing, addressing policy issues, and providing guidance and oversight related to cyber security at power reactors. Conducts technical reviews of licensee cyber security plans and adherence to regulations and standards to establish standards and ensure consistency in the review of licensing applications. Works closely with other agencies including other independent regulatory agencies, and nongovernmental entities to investigate cyber incidents, reduce burdens, and address potential issues in this rapidly evolving field.

UNITED STATES NUCLEAR REGULATORY COMMISSION

Yellow Announcement: YA-13-0068

Date: June 7, 2013

TO: All NRC Employees

SUBJECT: ESTABLISHMENT OF A CYBER SECURITY DIRECTORATE WITHIN THE OFFICE OF NUCLEAR SECURITY AND INCIDENT RESPONSE

I am pleased to announce the establishment of a Cyber Security Directorate within the Office of Nuclear Security and Incident Response (NSIR), effective, June 10, 2013.

NSIR has the lead organizational responsibility for the agency in developing and managing cyber security regulatory programs involving licensees across all business lines. In order to more effectively and efficiently accomplish this NSIR mission, a dedicated organization has been established within NSIR called the Cyber Security Directorate (CSD).

The CSD's primary mission is to develop a stable cyber security regulatory program for those licensees identified in [SECY-12-0088](#), "The Nuclear Regulatory Commission Cyber Security Roadmap," which, in addition to operating reactors, includes fuel cycle facilities, research and test reactors, independent spent fuel storage installations, and materials licensees. The mission also involves collaborating with the appropriate program offices on licensing, rulemaking, guidance development, and inspection activities pertaining to the cyber security oversight function.

In executing its mission, the CSD will interact with a variety of internal and external stakeholders, including the regulated industry, the White House, other Federal agencies, State governmental organizations, the general public, non-governmental organizations, professional societies, and international partners. The CSD will remain in place until a stable and consistent cyber security regulatory program across all business lines is established. It is currently envisioned that the CSD will be integrated back into the appropriate NSIR line organization by 2019.

To facilitate staffing of the CSD at the leadership level, several branch chief and deputy division director reassignments were made within NSIR as outlined in the revised organizational chart and functional statements.

/RA/

James T. Wiggins, Director
Office of Nuclear Security and Incident Response
