Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555-0001

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION REGARDING THE
APPLICATION FOR LICENSE RENEWAL (TAC NO. ME1587)

Sir:

By letter dated June 16, 2016, the Nuclear Regulatory Commission requested additional information necessary to allow processing of our research reactor license renewal application (License R-84, Docket 50-170). Answers to those questions and a draft Technical Specifications are enclosed.

In addition, at the request of NRC staff, the fueled experiment analysis from RAI January 17, 2012 may be used as the MHA for the AFRRRI facility even though the license amendment was withdrawn. (REF # ML12032A054)

If you need further information, please contact Mr. Steve Miller at 301-295-9245 or stephen.miller@usuhs.edu.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge. Executed on August 5, 2016.

Stephen Miller
Reactor Facility Director
