50-270
50-287

Dear Mr. Price:

This is in response to your letter of 12 February 1971 addressed to Mr. Michael S. Cafferty, Acting Assistant Secretary for Environment and Urban Systems, concerning the environmental considerations for The Duke Power Company's Oconee Nuclear Station, South Carolina.

The concerned operating administrations of the Department of Transportation have reviewed the environmental considerations for the Oconee Nuclear Station. It is the determination of this Department that the impact of this project upon transportation is minimal. Other than to recommend issuance of the license and early construction of this project, no additional comments are offered.

The opportunity for the Department of Transportation to review and comment on this report is appreciated.

Sincerely,

[Handwritten Signature]
H. A. SOLBERG
Captain, U. S. Coast Guard
Acting Chief, Office of Public and International Affairs
