February 11, 1973

Mr. William L. Porter
 Duke Power Company
 P. O. Box 2178
 Charlotte, North Carolina 28201

Dear Mr. Porter:

In response to your letter of February 8, 1973, we wish to confirm our certification in accordance with provisions of the Federal Water Pollution Control Act of 1972.

As stated in our letter of November 21, 1972, the South Carolina Pollution Control Authority has reviewed the information submitted concerning the discharge of the Duke Power Company, Oconee Nuclear Station, cooling water discharge. Based on this evaluation, the Pollution Control Authority certifies that there is reasonable assurance that the water quality standards of the State of South Carolina will not be violated.

This certification is intended to satisfy the requirements of 401 (e) (1) of the Act. However, there are no applicable effluent limits or other limitations presently established pursuant to Section 301 b, 302, 306, and 307 of the Act at this time.

The State of South Carolina believes that the Oconee facility will comply with the previously approved state standards and the South Carolina Pollution Control Authority will take all steps necessary to assure compliance with applicable provisions of Sections 301, 302, 306, and 307.

Yours very truly,

R. Kenneth Tinsley
 R. Kenneth Tinsley, Chief
 Water Pollution Control Division
